

POS EQUIPMENT & SOFTWARE

For every transaction, you and your customers want fast, convenient, secure, and reliable service. You also want to provide a range of payment options - credit and debit cards, gift cards, checks, even Dynamic Currency Conversion. That means your POS terminals, imagers, PIN pads, and printers need to be flexible, accurate and easy to use, with minimum maintenance requirements and small footprints to keep your countertop clutter free.

Certegy offers equipment from a variety of leading manufacturers, certified to operate on the NOVA Network, rated #1 for reliability and availability by MasterCard®.

GET AN ONLINE WINDOW TO YOUR PAYMENT PROCESSING ACCOUNT

Certegy and NOVA Information Systems have teamed up to provide all the information you need to better manage your electronic payment activity.

MerchantConnect, with its robust content and reporting features, gives you instant access to account and deposit information, chargebacks, and support in a one-stop, online service that's fast, easy and secure. And best of all, it's FREE!

On February 1, 2006, Fidelity National Financial (FNF) and Certegy, Inc. completed the merger between Fidelity National Information Services, Inc. (a subsidiary of FNF) and Certegy, creating Fidelity National Information Services (FIS), a publicly traded company.

Build a stronger bottom line with every transaction. Call us today at 1-866-496-2645 or e-mail merchant.services@certegy.com.

COMPREHENSIVE SOLUTIONS FOR YOU AND YOUR CUSTOMERS

Convenient. Secure. Reliable. Cost effective.

These are the standards for payment processing in today's business environment. And no matter what type of business you run - retail, restaurant, service, healthcare, mail order/telephone order or Internet, you've got to meet them without sacrificing bottom line performance.

You need a processing partner who understands that challenge; more important, you need a partner who can meet it.

The team of Certegy and NOVA Information Systems offers the industry's most robust, end-to-end processing solutions, backed by unmatched expertise in the development of payment technologies and a firm commitment to personalized service.

The Educated Choice

The Educated Choice

PAYMENT SOLUTIONS

Our broad range of payment choices are complete with built-in business tools that make accepting payments simple and easy.

- Credit cards
- JCB - Diners Club
- Debit cards
- Gift cards
- American Express
- Electronic benefits transfer (EBT)
- Discover Card

FLEXIBLE, SECURE SYSTEMS

Your customers expect payment options that are convenient and reliable. You need security and affordability. But where can you find systems that satisfy all your requirements?

Our experts can design a full service payment program that accommodates you and your customers, regardless of your business size or type. And our flexible systems include risk management and fraud control features that ensure security while reducing chargebacks and processing expenses. You benefit from a secure transaction environment tailored specifically to meet your requirements, one that provides enhanced revenues and increased customer satisfaction, and allows your customers to choose the payment options they prefer.

POS EQUIPMENT, NETWORK CONNECTIVITY

To ensure fast, reliable point-of-sale transactions we offer a range of equipment for lease or purchase. Terminals, printers, PIN pads and peripherals from a variety of manufacturers are supported:

- Verifone Omni 3730 LE
- Omni 3750 Ethernet or Dial
- Hypercom T7Plus

The NOVA Network supports its own proprietary PC and Internet software such as viaKLIX and viaWARP, as well as solutions provided by more than 100 resellers and software providers.

MERCHANTCONNECT: UP-TO-THE-MINUTE REPORTING

Fast. Easy. Secure. That's how MerchantConnect, NOVA's proprietary online reporting system, supplies all the information you need to manage your payment processing activity. It's fast, because it provides free online access on a 24/7 basis. It's easy, because it utilizes intuitive user software without any special software requirements. And, it's secure because it is password protected, keeping all cardholder information safe.

Reporting capabilities allow you to review account and chargeback information and perform any account update/maintenance function you require.

COMPREHENSIVE INFORMATION AND REPORTING TOOLS

My Account

Provides fast access to all the information you need to manage your account and receive the best possible service. It allows you to view and update your merchant profile, view online statements, maintain account information and contact customer service.

My Reports

Furnishes timely and secure accounting information, including deposit summaries, transaction activity, chargeback and retrieval status, and links to report sites for our Electronic Gift Card Program.

- **The Deposit Record** gives a summary of your checking account deposits from settled batches, with drill down detail capability for each batch.
- **The Chargeback Status Report** lists each chargeback, its current status, reason, sales date, and card information.
- **The Retrieval Status Report** provides information on the amount of the retrieval request, date received, transaction date, and card information.

Support

Easy to access, comprehensive information about transaction processing, industry mandates, product support, and practical tips on processing cost control and bottom line improvement.

- **Equipment Support Area** has detailed information about card terminal use and payment processing software. Offers helpful steps for performing basic functions on most terminals and software products. You can also download Quick Reference Guides for our terminal solutions.
- **Interchange Information Area** helps you understand the rules and regulations that determine transaction pricing. Included are charts that outline qualification categories, conditions, and helpful procedures for specific industries.

SOFTWARE AND INTERNET CONNECTIVITY

Turn your PC into a powerful POS payment processor with NOVA proprietary software solutions:

viaKLIX

Single User - Virtual POS Terminal

- via PC using existing Internet collection
- process credit and debit card transactions
- face-to-face, mail orders/telephone orders

viaWARP

Scalable up to 150 users

- via PC using existing Internet collection
- process credit and debit card transactions
- face-to-face, mail orders/telephone orders

You may also connect to the NOVA Network using a variety of proprietary interface specifications. The NOVA Network supports solutions from more than 100 value-added resellers and software providers.

CERTEGY AND NOVA INFORMATION SYSTEMS - THE COMBINED STRENGTH OF INDUSTRY LEADERS

Certegy, a proven leader in advanced payment services and loss prevention tools, has formed a strategic partnership with NOVA Information Systems to deliver robust, affordable payment processing and management systems designed to increase your efficiency, security, and profitability.

Together we serve more than 850,000 merchant locations worldwide from operations in nine countries, processing more than a billion transactions annually.
