

# AMERICA'S BEST-IN-STATE CREDIT UNION!

We're proud to announce that Teachers has been named one of **America's Best-In-State Credit Unions** by Forbes!

This prestigious recognition was awarded to Teachers based on factors related to member experience, digital solutions, branch services, and financial expertise. These key differentiators helped us to not only be named one of the best in New York state, but as one of the best in the United States, with **only 3% of credit unions across the country selected for this distinction.**

As always, we are committed to helping our members achieve their financial goals. We want to express our deepest gratitude to our members for their loyalty, and for allowing us to serve you for nearly 70 years.

## SMART ADVICE FROM THE CEO

Over the last several months, the Federal Reserve has steadily increased the overnight Fed Funds Rate, which has led to an increase in all borrowing and deposit rates. The Federal Reserve has taken this course as a way to help temper ongoing inflation. Furthermore, it is widely expected that they will continue on this course for the near future. At Teachers, we understand that these economic shifts can impact each of our members' financial lives differently. We are committed to offering you the best guidance to ensure you are positioned for success - no matter what financial situation you may be in.

Whether you are in need of consolidating debt, are interested in identifying ways to earn a higher return on your savings, or are looking to conduct a financial checkup, our experts are here to guide you. I encourage you to visit one of our branches or schedule an appointment to ensure you're on track to meet your financial dreams and goals.
